

# ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER.

ALEXANDRIA, VA.

MONDAY, JANUARY 15.

**DEATH OF BISHOP MCGILL.**—Bishop McGill, who for the past twenty-one years has been in charge of the Catholic Diocese of Virginia, died yesterday morning in Richmond. He had been ill a long time and his death was not unexpected. He was a learned and pious prelate, greatly beloved by the members of his own church, and respected and admired by persons of all denominations. During his late visit to Rome, he was recognized there as one of the ablest bishops in the Council. The general sorrow with which the account of his death has been received will show the estimation in which he was held. Appropriate honors to his memory will be paid.

The Baltimore Sun in noticing the death of Bishop McGill, says:—"He was consecrated third Bishop of the Diocese of Richmond, November 10, 1850. He was sixty-two years of age at the time of his death. He was at one time the vicar general of Bishop Spalding, in Kentucky. He was the immediate successor of the Rev. Richard V. Whelan, second Bishop, and Rev. Patrick Kelly, first Bishop of the diocese of Richmond, which was established in 1821, and comprised Eastern Virginia and the valley formed by the Alleghany and Blue Ridge mountains southward as far as Monroe county. He was born in Kentucky, and was at one time a member of the bar in the courts of his native State. Before he was consecrated a bishop he was a pastor at Louisville, Kentucky, where he was regarded as a very eloquent preacher and a close reasoner. Bishop McGill was of venerable and imposing appearance, easy in manners, and a most persuasive speaker."

**LOUISIANA AFFAIRS.**—The excitement still continues in New Orleans. On Saturday the Cartermen sent to the Warmouth House of Delegates, a demand for possession, which the latter refused to receive. The police and militia guarded the State House and Carter restrained the threatened forcible attempt to seize the building, and bloodshed was prevented. Gen. Emory was solicited by the mob to declare martial law, and gave a rather angry and not very encouraging reply. Carter avowed a purpose to attack the State House with a sufficient number of sergeants-at-arms to capture it, and has appealed to Gen. Emory to know what the military will do. The latter gives no assurances in his answer. In expectation of Carter's raid, Warmouth has ordered out all the militia for to-day. The National Government still refuses to interfere.

It is reported, that the President and Secretary of State are offended at the tone of the published note of Gortschakoff to Mr. Curtin, U. S. Minister at St. Petersburg, on the course pursued by the President and Secretary Fish towards Catecazy. The following is an extract from the note of the Russian Minister of State:—"The acquiescence by the imperial government of Russia in the request of Secretary Fish ought, by the rule of courtesy between two friendly nations, to have been considered as a final settlement of the question. In the subsequent correspondence on the part of Secretary Fish there was, however, neither sufficient attention nor proper respect shown to a Russian ambassador performing duties such as he had a right to expect from the government at which he was accredited. The letter of Secretary Fish presents serious though vague complaints against M. Catecazy, and thus invites the imperial cabinet to judge the conduct of its representative. In the opinion of the government of his Majesty the Emperor, M. Catecazy has satisfactorily refuted many of these complaints. On the others the imperial cabinet will deliver its judgment when M. Catecazy has had full liberty to present his case.—The imperial Chancellor hopes that justice is sufficiently understood in the U. S. not to expect it before."

The reception by the Navy Department, last week, of the affidavits of the captain, officers and crew of the Florida, giving in full detail, with dates, names, &c., the account of the search of that vessel on the high seas by two Spanish men-of-war, created no little comment in that quarter. It is stated that the government, adhering to the principle re-established in the Trent case, will demand of Spain, first, an apology for its repeated outrage on this vessel; second, the punishment of the officers who committed it; and third, indemnity for damages sustained. It is believed the apology will be made, and the matter settled.

A fire broke out and raged from two to nine o'clock yesterday morning in a block of saw mills and lumber yards, on First avenue, between Thirty-first and Thirty-second streets, in New York, extending to the East river. Two saw and planing mills, a varnish factory and immense quantities of lumber were destroyed. Loss \$250,000. Subsequently another fire occurred on Wooster street. Loss \$100,000.

The Secretary of war has endorsed a petition that Congress appropriate \$50,000 or more, if necessary, for the construction of a telegraph line from San Diego, California, to Prescott and Tucson, Arizona, a distance of six hundred and twenty-eight miles. The proposition is for the Government to own the line, and have it built by soldiers.

The Warrenton Index says:—"The Miss Jane Milligan mentioned in the list of loyal Virginians whose claims for damages during the war were allowed by the Southern Claims Commission and submitted to Congress for payment, is not Miss Jane A. Milligan, of Ringwood, Fauquier county."

Mr. Kinchloe has offered a resolution in the House of Delegates, looking to such a change in the laws regulating marriage, as will allow persons under age to marry, without obtaining the consent of their parents or guardians.

There are "rumors in Washington" though names and details are not promised at present, that a fraud on the government to the amount of four millions of dollars has been discovered.

It is said that Mr. Sumner will continue to urge his supplementary civil rights bill as an amendment to the amnesty bill, and that he will make an elaborate speech on the subject, in which he may assail the President on this question, and charge him with preferring amnesty for rebels before equal rights for the colored race. For Grant told a colored delegation last week that he preferred the amnesty bill to go through on its merits, and not be amended in the manner proposed.

A dispatch from San Francisco says:—"Laura D. Fair, having drawn her funds out of bank and transferred them in order to defeat her attorneys and prevent Dr. Trask, her medical counsel, from attacking them by her claim, is now unable to make her mother, Mrs. Lane, return \$10,000 thus entrusted to her. The latter refuses to disgorge." This is very much like "financiering" at the foot of the gallows.

A powder house was accidentally blown up at Rockland, Maine, yesterday; and in the evening an attempt was purposely made to blow up one hundred kegs of powder stored in a warehouse in the same place.

Mr. Horace Greeley declines the office of President of the Union Republican General Committee of New York city to which he was recently elected.

## NEWS OF THE DAY.

"To show the very age and body of the Times"

The Cumberland (Md.) News hears that Dr. J. T. T. Offat, of Capon Bridge, Hampshire county, West Virginia, was shot and killed by his own son on Thursday last. It is said the son, a young man about twenty-one years of age, is of wild and reckless habits, and his father was, at the time of the shooting, giving him a lecture upon his misconduct, when the son drew a pistol from his pocket and shot his father dead.

A quarrel is said to have broken up that powerful organization, the Workmen's Benevolent Association at the coal mines in Pa. The Welsh and English miners are arrayed against the Roman Catholic Irish members, and the delegates belonging to the three large companies have just refused to attend the General Council at Mahanoy on account of their dislike to James Kealey, the Irish President of the Society.

The revolution in certain portions of Mexico does not appear to meet with that success hoped for by its leaders. Cortina has invested Mier, and at last advices was inflicting heavy damage upon the insurgents, four or five hundred in number. The revolutionists, however, expected to be reinforced by friends from Monterey.

The Schuylkill county miners in Pa. have agreed upon terms for the present year. The miners in the Lehigh region and the Wilkes-Barre Iron and Coal Company have settled upon terms agreeable to both operators and miners. This adjustment of the difficulty ensures the continuance of the present price of coal in the market.

The famous Fisk letters to Miss Mansfield have been published in the New York papers, but instead of their containing dark and complicated schemes relative to Erie, they are nothing more than a batch of love epistles, in which the writer professes the greatest solicitude for the happiness of Miss Mansfield.

In the suit brought by John Ritchie in the U. S. District Court in Baltimore, Judge Giles on Saturday decided that his salary as State's Attorney for Frederick county was not subject to the income tax. This is in accordance with a like decision made in Massachusetts more than a year ago.

A bill has passed both Houses of the Legislature of Illinois enacting that all liquor sellers shall pay a license of \$3,000 and give sureties to be responsible for all damages in person or property incurred by the whiskey drinkers, to be recovered by the person injured.

The Marquis of Bute it is said, has determined to start a line of steamers between Cardiff, in Wales and New York for the purpose of carrying antiferrous, galena and other metallic ores, to Cardiff, for smelting, and return with the pig metal.

The Grand Jury of the Court of Sessions in New York say that they have discovered frauds on the city to the amount of \$15,000,000, but they cannot make any report or bring in indictments against the criminals until the Oyer and Terminer Jury shall adjourn.

There were two hundred and sixteen deaths from small pox in Philadelphia last week, which is twenty less than the number reported the week previous.

The Washington Herald says that Baltimore or St. Louis will be selected for holding the National Democratic Convention.

The Cleveland Democrats are about to organize a club favorable to the nomination of Thomas A. Scott for the Presidency.

**COURT OF APPEALS.**—The court was occupied on Saturday hearing the case of Price vs. Bird. A short history of this case is: Some thirty-five years ago a Miss Bird, of Hanover county was declared to be a lunatic by a commission of justices in said county, and her estate was committed to Mr. Price to be taken care of. Miss Bird acted as such committee for thirty years; after which time his powers were revoked. After the revocation of his powers, Miss Bird instituted a suit by her next friend, Thomas R. Bird, against said Price for a settlement of his account as her committee. The county court of Hanover decided in her favor, and then the case was taken to the District court at Fredericksburg, which affirmed the decision of the court below, whereupon an appeal was taken to this court.—Since the case has been brought here, Thos. R. Bird has been tried in Alexandria for bigamy, and sentenced to the penitentiary for five years. He appealed from this decision to this court, and it affirmed the judgment below, and Bird is now undergoing his sentence in the penitentiary. William R. Winn, esq., spoke Saturday on behalf of the appellee, Miss Bird, and he will be followed to-day by G. G. Griswold, esq., for the appellant.—*Rich. Eng.*

**WASHINGTON ITEMS.**—The "season in Washington" is now in full tide. Receptions, German, matinee, balls, amateur theatricals crowd upon each other. Equestrian parties have just been inaugurated.

The District House of Delegates have so amended the water mains bill as to abolish the water tax and the office of water registrar after the 1st of July next.

## From Richmond.

(Correspondence of the Alexandria Gazette.)  
RICHMOND, Jan. 13.—In the Senate, to-day, a report from the Commissioner of Immigration was received, and referred.

Bills were reported from committees for the relief of Robert M. Hoterick, late superintendent of schools for Rappahannock county; to repeal the 8th section of the act directing the Board of Public Works to sell the State's interest in the various internal improvement companies; to incorporate the Bridgewater and Mount Crawford, and Bridgewater and Rawley Springs turnpike companies.

A bill was introduced to provide for the re-division of the county of Rockingham into townships.

Resolutions of inquiry were adopted as to the expediency of amending sections 2 and 4 of the Constitution, so as not to require the annual election of commissioners and overseers of roads, and as to what sums of money were paid out of the State Treasury, during the year 1872, on account of clerks, messengers, and aids to the Governor, and under what provisions of law such payments were made, and if the same could be repealed without detriment to the public service.

A joint resolution was adopted proposing an amendment to the 12th article of the Constitution, in relation to the manner in which amendments to that instrument are made, and providing for the publication of the amendment and for the communication of a copy thereof to the General Assembly to be chosen at the next election.

Nearly the whole time of the session was occupied in the discussion of the question of the per diem and mileage of members; various amendments were offered, some members being in favor of substituting a salary for the per diem, others were for \$4 per day, some for \$5, while some were for retaining the present per diem.

One Senator moved to strike out all per diem make the legislative service honorary, another moved to amend by requiring each member to pay \$1 per day for "the honor and glory" of serving in the Legislature.

The vote by which the Senate refused to strike out the clause, fixing the pay of the President of the Senate and Speaker of the House of Delegates, at \$700 per annum was agreed to—yeas, 21; nays, 13.

Mr. Fitzpatrick moved to fill the blank with \$500.

Mr. Anderson, of Pennsylvania, moved to fill the blank with \$600; and the question being put thereon it was determined in the negative—yeas 15, nays 16.

The question recurring on the motion to fill the blank with \$500, it was determined in the affirmative.

Mr. Fitzpatrick moved to amend by adding: Provided that the Speaker of the House of Delegates and the President of the Senate shall receive each the sum of \$6 per day, and the members of the General Assembly each \$4 per day, for their service, during an extra session of the General Assembly.

The amendment was rejected.

Mr. Taylor moved to amend the substitute by adding the following proviso: "Provided, however, that no member of the General Assembly shall receive more than \$5 as mileage." Rejected.

Mr. Nowlin proposed the rate of mileage five instead of ten cents per mile. Agreed to—yeas 18, nays 15.

Mr. Graham proposed a further amendment, in effect that mileage only be paid for necessary travel. Rejected.

The bill was then laid on the table and made the order of the day for Tuesday, at 1 o'clock.

In the House of Delegates bills were reported to incorporate the Southern Trust and Banking company; to incorporate the Bank of Berryville; and to incorporate the Bank of Warren, in the county of Warren; to amend the code in relation to distress for taxes on land, and to amend the general election law.

Bills were passed to authorize the Common Council of Harrisonburg to submit the question of levying a special tax for public purposes, and to provide for the reassessment of the lands throughout the Commonwealth, with Senate amendment.

The House concurred in the report of the committee on Courts as to the expediency of making official bonds a lien upon the real estate of the sureties thereto.

Bills were introduced to allow certain rural orders to be made by county judges in vacation; to amend the rural law; to amend section 12, chapter 163 of the code, and resolutions as to the expediency of amending the code in relation to persons intending to marry who are under 21 years of age, so as to allow such persons to marry within the State of Virginia, without the consent of father, mother or guardian, and as to the expediency of amending the code in regard to unlawful luring, &c.

A Senate bill to amend the code in relation to judgment liens, was presented.

The Senate joint resolution providing for the appointment of a joint committee to consider what amendments to the Constitution are necessary, was passed—yeas 49, nays 41.

The House joint resolution providing that coupons shall not be receivable for taxes or other demands until further legislation, was laid on the table.

**FAIRFAX CO.**—[From the Fairfax News.]—We are informed by Mr. Frank Palmer, of Vienna, that during the Christmas holidays a party of ladies and gentlemen were proceeding to a friend's house near Aldie, for the purpose of attending a social gathering, when the horse ridden by Miss Mary Groot, of Washington, D. C., became unmanageable and ran off, throwing its rider, who received several severe bruises. Mr. P. D. Gummel, of this county, who was in company, went forward for the purpose of catching the animal, and after doing so, was returning, when his horse, in the darkness, walked over an embankment in the road, and falling with its full force on Mr. Gummel's leg, injured it severely, from which he has since suffered intense pain. Both accidents happened within a few minutes of each other.

It is rumored that Mr. Frank Schoonmaker, who formerly lived at Clifton station, was, with thirteen others, hurt in a snow-slide on one of the Manassas railroads a few weeks ago, when all perished. The story is, however, doubted by some of his most intimate friends.

Lewis Clifton, a son of Mr. H. Quigg, residing near Clifton, met with a serious accident on Friday week, by severely cutting his foot with an axe, while chopping wood in his father's woods. Doctors Simpson and Green are attending him.

Mr. C. L. Adams, who was seriously injured by the falling of a tree a few weeks ago, is, we are sorry to learn, permanently crippled; so much so, that he will almost if not quite, lose the use of his left hip—which was badly fractured.

Mr. Wilcox, residing near this place, who had one of his eyes injured several weeks ago—after suffering intense pain for some time—has had the misfortune of losing the entire sight of the injured eye.

The personal property of Mr. Oscar Vozin, which he sold on Thursday last, brought good prices, notwithstanding the terms were cash. Mr. Vozin has rented his finely improved farm to Mr. Richard Butler, Jr. (Mr. Vozin) having engaged in business in Philadelphia.

We learn that Mr. Thomas Payne and Mr. Lynn, of Manassas, will shortly open a new store at Clifton.

**PRINCE WILLIAM CO.**—[From the Prince William Gazette.]—On Friday evening last, Theodore Ketcham, son of Jason Ketcham, esp., of this place, who is employed as a brakeman on the Alexandria and Manassas Railroad, met with a severe accident near Strasburg. The train was moving slowly into that place, when he jumped off to open a switch, but in so doing fell into a cattle trap, breaking his left leg.

We understand that Gen. O. O. Howard contemplates erecting during the coming spring, twenty-five brick houses on his property at this place, lately purchased of P. B. Stillson, esq.

Mr. James F. Clark, Commonwealth's Attorney, has removed from Breensville to Manassas.

**ADAMS EXPRESS COMPANY.**—We are authorized to state that the Adams Express Company have made a material reduction in their money tariff. Packages of \$25, or less can be sent at one rate of the country for the order; all the rest of them have since then been strengthened by a bond in a centre of the spurs except four, which have each one trust of a truss-rod bridge under the centre of the track.

LAND.—Capt. Edgar Whitehead of the Virginia Land Agency, and B. F. Nalle and R. E. Stringfellow, on the part of the O. A. & M. R. R. Company have just closed the examination of 23,000 acres of Annerst and Nelson lands. The Company's agents are well pleased with most of the lands shown, and there is every probability of a sale.—*Amherst Enterprise.*

**DEATH OF MR. THOMAS LEFFWICH.**—A private letter received here says that Mr. Thomas Leffwich, the father of Rev. J. T. Leffwich, formerly pastor of the 2nd Presbyterian Church in this city, died at his home in Liberty, Bedford county, Virginia, on Saturday last in the eightieth year of his age.

**POPULATION OF VIRGINIA.**—According to the census taken the population of Virginia for 1870 is 1,215,183; of which the number of native born is 1,211,709; foreign born 13,754.

**NOTICE.**—The members of the San Francisco Convention will meet at this hall on Wednesday evening at 7 o'clock. Every member is requested to be present, as business of importance requires their attention. Jan 15-3t

**CONCERT.**—I will endeavor to procure tickets and seats for one of THEODORE THOMAS'S CONCERTS, in Washington, January 24th or 25th, for fifty or more persons, provided their names will be handed in on or before Thursday, Jan. 18th. The tickets will be assigned in the order in which the names will be received.

**VICTOR BECKER.**  
Jan 15-3t 149 King street, Alexandria, Va.

**PISOS CURE FOR CONSUMPTION.**—We have personal knowledge of some wonderful cures effected by this remedy, and at the request of parties benefited by its use will keep a supply on hand for our customers. Further information as to the character of testimonials, &c., cheerfully given upon inquiry at our store. Price \$1 per bottle.

**JANNEY & CO.,**  
No. 145 King street.  
APPLE BUTTER—Apple Butter, packed in small buckets, expressly for family use, for sale at 147 King street.

**SWEET CIDER.**—Sweet Cider for sale at 147 King street.

**FANCY AND TOILET ARTICLES.**—We have just received a large and select assortment of

**LOW'S and PIVERS' EXTRACTS,**  
Toilet Sets, English and American Soaps, Hair Brushes, Combs, &c. Call and examine at COOK & CRIGHTON'S, 107 King street.

**THE AMERICAN BUTTON HOLE OVER SEAMING AND COMPLETING MACHINE.**—The first and only Button-Hole sewing Machine combined that has made its advent in this or any other country, is now on exhibition and for sale by

## Alexa. & Washington R. R. Bridge.

Office Alexandria and Washington R. R. Co., Washington, January 13, A. D., 1872.  
To the Public: In justification of the management of the Alexandria and Washington Railroad and the continued use of the railroad bridge over the Potomac river, I beg to submit herewith copies of certificates on file in the company's office, certifying to a different condition of the bridge from that indicated by the Evening Star of the 10th instant, and the report of Messrs. Greene and Barney, chief and assistant engineers to the Board of Public Works, as published in the Evening Star of the 12th instant.

Unfailing, however, to pursue a course which, in the opinion of any one, is calculated to imperil the safety of passengers on our road, I have given orders for the suspension of the passenger traffic on and after the 18th instant, and until an examination of the structure can be made by the engineers of the Baltimore and Ohio, Chesapeake and Ohio, and Orange, Alexandria and Manassas Railroads. I shall be governed in my future action by the report of these gentlemen, which will be duly submitted to the public.

O. A. STEVENS,  
Pres. and Gen. Supt. A. & W. R. R. Co.

WASHINGTON, D. C., Jan. 12, 1872.  
O. A. Stevens, esq., President and General Superintendent Alexandria and Washington Railroad, Washington, D. C.

Dear Sir: My attention having been called by you to an article in the Evening Star of the 10th instant, having reference to the unsafe condition of the railroad bridge over the Potomac river, I beg to say that, in addition to the daily examinations required under previous instructions, I called upon Mr. H. W. Vandegrift, chief engineer, and general superintendent of the Orange, Alexandria and Manassas Railroad, and requested him to detail his bridge inspector and builder to meet Mr. Dent, foreman in charge of our bridge, and myself, on Thursday, the 11th instant, and together make a thorough and complete examination of the bridge and its present condition. Herewith find the report of Mr. Evans, which was handed me this morning by Mr. Vandegrift, and in which Mr. Dent and myself fully concur, as to the safe condition of the bridge for the transportation of passengers and freight.

W. J. PERKINS,  
General Manager A. & W. R. R.  
MATTHEW DENT,  
Foreman in charge of Bridge.

ALEXANDRIA, VA., January 11, 1872.  
H. W. Vandegrift, esq., Chief Engineer and General Superintendent.  
Dear Sir: By your direction I met Mr. Phelps and Mr. Dent, on Thursday, the 10th instant, and made a thorough inspection of the bridge and to report its condition to you, and to report its present condition as compared with its condition immediately after it had been repaired by Mr. Clephane, in 1870.

The crossing at the south end of the bridge has never needed any repairs, and is still in good condition. The five spans of bridge are entirely supported by the piles driven along the sides of the bridge, and capped with timbers crossing the bridge and underneath the bottom chords of the bridge, and upon which the entire weight of the bridge rests. Then, immediately underneath the track, and reaching from one cap to the other, are stringers, which support the floor timbers of the bridge, and upon which any train could cross the bridge taking away. The bottom cross of the bridge, act with the stringers underneath the track, and as it now stands I consider that part of the bridge as a truss-rod bridge can be made. The draw is new and in good order. There were ten (10) new spans of the fifty-foot bridge put in in 1870, which have since then been strengthened by a bond in a centre of the spans except four, which have each one trust of a truss-rod bridge under the centre of the track.

I consider the bridge in as good condition as it has been for the last two years, and better than it was in 1870, when the trains commenced running after Mr. Clephane had the bridge repaired. Yours, very respectfully,

P. L. R. EVANS,  
Bridge Inspector O. A. & M. R. R.

## SPECIAL NOTICES.

**THROW IN REINFORCEMENTS.**—The Citadel of Life is in a state of siege all through the year, but is never more closely invested than in the winter. The liver is usually somewhat torpid, and the bowels more or less constipated at this season, and dyspepsia often assumes its most aggravated form in cold and wet weather. In short, the sluggish system seems inclined to internecine strife, and the most important duties under the influence of a low temperature, and requires wholesome stimulation. The spur required is Hostetter's Stomach Bitters, the only medicine which quickens the action of the secretory organs, and brings out the latent vitality of the system, without creating any febrile symptoms, or the slightest nervous excitement.

The great Vegetable Tonic is not recommended as a specific for Coughs, Colds and Consumption—that being left open to the concoctions of preparations which cannot, by any possibility reach the lungs! but as a specific for the constitutional and physical weakness which invite pulmonary disease, it is literally infallible. The most insidious and terrible enemy of human life is not disease itself, but the weakness which precedes it, and which is a firm hold of the vital system. Remember that Stimulus, Vital Energy—the life-principle, or whatever you may choose to call the resistant power which battles against the causes of disease and death, is the grand safeguard of *yourself*. It is the guardian of the mind, the fortress, and when it waxes weak, the true policy is to throw in reinforcements. In other words, when such an emergency occurs, commence a course of Hostetter's Bitters.

Jan 15-6w

**BACHELOR'S HAIR DYE.**—This superb Hair Dye is the best in the World—Perfectly Harmless, Reliable and Instantaneous. No disappointment. No Ridiculous Tint, or Unpleasant Odor.
